Making it happen in real Life: Joe's Story

Caroline became involved in trying to influence change for people with disabilities when her son Joe contracted meningitis at six months old and was left with complex disabilities. Joe was one of the first people in the country to have his own individual budget and now has his own house, business, car and a good sustainable life.

Facilitated by Caroline Tomlinson: a co-founder and director of In Control, Director of My Life CIC, and Joe Tomlinson's mother.

Over lunch there will be the opportunity to speak to a range of people, including:
